

EUROCATERING LANGUAGE TRAINING

EuroCatering Language Training - a web-based interactive language course and social platform in 7 languages for the catering sector

This web-based language course will enable the student to learn vocabulary and communicative skills for placement abroad in a kitchen or restaurant. Realistic interactions with an animated chef and/or manager are the main ingredients of this course. The product also includes a portal which students will use to consult extra reference material about their placement, or to report on their stay abroad by means of a blog, photo album or video material.

Our target group consists of trainees and professionals in the catering industry. Available languages are English, French, Spanish, Galician, Dutch, Norwegian and Slovenian.

All developed materials may be used independently or as an add-on to any language course in the professional sector.
